MEDIA PACK 2025

Air Logistics International sets out to reconsider the traditional focus of air cargo publications.

Targeting the oft-overlooked players within the industry, such as forwarders, GSAs, shippers and logistics specialists, each issue of the magazine brings these cargo chain components, and others besides, under the spotlight.

Today's fast-paced cargo sector relies on a wealth of factors, not least the human/technology interface. In a world dominated by e-Commerce, where response has to be immediate and the margin for error is miniscule, it is imperative that the links in the chain are unbreakable. But anomalies persist: the sector still relies heavily on paper for communication and squaring that particular circle remains an ongoing challenge, which promotes plenty of comment.

Problems such as this are tackled by ***Air Logistics International***, in addition to the study of trends and developments, along with important insight from industry figures, geographical analysis and topical news.

If you are involved in the business of moving essential freight, then make ***Air Logistics International*** an essential part of your business – and gain a cutting edge.

Target a Global Readership

Identifying the decision makers is the key in this area.

When you consider the value of international trade shipped by air is US\$5.5trn, that is just 1% of world trade by volume - but over 35% by value.
